

M & M BUILDING SUPPLIES LTD.

To our valued customers:

As a company, M & M Building Supplies Ltd. is an unusual organization. Young at heart and full of innovative ideas...yet mature enough beyond our years in terms of belief and policy. For example, we steadfastly believe that our customers are always right and we have made it our firm policy to do every reasonable thing possible to ensure your satisfaction.

M & M Building Supplies Ltd. is locally owned and independently operated, which means that we are your neighbors and an interested member in our community...one who lives, works, buys, promotes, helps and pay taxes here...just like you.

By reading through this catalogue, you are actually making the first important step towards a new home of your own. We realize, of course, just how exciting this event is for you and your family, and how puzzling it can sometimes be, especially for first time home buyers.

So when it comes to making a decision about buying a home; some lumber, or even a door lock...there are three important things you can always count on when you buy from M & M Building Supplies Ltd. Well informed, neighborly service, good reliable quality at a fair price, and of course total satisfaction is what we strive for. That is a promise.

We wouldn't have it any other way.
